

# Designing Solutions for a Positive Life

## Company Overview

For over 15 years, our Philippines operation has delivered quality engineering and architectural designs, as well as tender and contract management services across several markets. We have been providing special advisory services for small hydropower plants, preliminary and detailed designs for the building and industrial sectors and have been engaged as an offshore design arm for a number of multinational companies.

We comprise approximately more than 200 dedicated employees in the Philippines and are part of the Artelia Group with 6,700 employees based in around 40 countries spread across Europe, Africa, Asia, and the Americas.

We operate two offices in Metro Manila and work on various sites across the country.

As a part of an international group, we can draw upon specialist know-how from our passionate and solution-oriented colleagues around the globe.

In the Philippines, we work within four market lines:

Building Construction & Industrial Facilities

Energy & Water

Global Design Services

Shell Mobility
